

Senior Executive, Corporate Board & Advisory Board Services

Leverage top executives with deep experience at the intersection of business and technology

BlueSky offers unique access to a seasoned set of executives who are recognized by clients for their leadership in large scale business transformation leveraging technology.

Senior Executive and Board Recruitment & Placement

Our proven recruitment method will find the next leaders and visionaries for your organization by focusing on individuals with industry specialization, a trend-ready outlook and knowledge of how to align business processes and technology with strategic goals.

Talent Development

Everyone has room to develop and thrive. Our highly experienced team offers targeted coaching in areas such as strategic decision making and communication skills for both IT business executives and board members to improve individual and organizational performance.

Advisory Services

Hearing an objective, experienced voice can be the key to creating winning strategies in a complex and evolving business environment. Our highly specialized consultants will provide the guidance to help make critical decisions about business transformation and take action.
