

Our only goal is to exceed your expectations in every way.

BlueSky delivers three business services:

Professional Search

Recruitment and placement of top-talent, full-time professionals through three service offerings customized to meet your needs - Retained Search, Contingent Search and Search Outsourcing.

Business Consulting

Recruitment and placement of experienced interim business consulting professionals supporting interim engagements.

Technology Delivery

Recruitment and placement of experienced interim technology professionals supporting systems integration engagements or technology operations.

Experience. Insight. Focus.

Each member of BlueSky's Professional Search team has led large-scale business change during their careers. This experience gives our team unique perspectives and real-world insights to focus on identifying the highest quality candidates on each engagement.

We connect the right people with the right opportunities at the right time.

1

Define

Both the business challenge and the unique blend of skills and behaviors that lead to success within your organization.

2

Apply

Our intimate knowledge of your culture and values to select the candidates that are most likely to succeed within your company.

3

Deliver

The highest quality client service, value and results. Period.
