

We find the **right** talent.

Because we were technology consultants before we were recruiters, we are able to assess and source candidates from a position of proven experience.

We approach each search engagement as we would approach a consulting project, starting with understanding the client's needs. We then translate those needs into a specific set of behavioral attributes and skills that make up the ideal candidate.

BlueSky has placed over **300** professionals at premier consulting organizations and Fortune 500 companies

Our team has a combined **40 years** of consulting experience that we've been leveraging for over **10 years** in the recruiting world

Working with us is simple because we give you a **single point** of contact

We help our clients **infuse diversity** into their organizations and sustain inclusive cultures

What People Say

“

I get it. You're business people first, recruiters second.

Top Tier Consulting Firm

”

“

There's a certain DNA you look for in consulting and BlueSky knows that programming.

Partner, Top Tier Consulting Firm

”

“

BlueSky was our most productive vendor last year. They produced twice as many FTE hires as the next vendor in line.

Assistant Recruiting Director, Top Tier Consulting Firm

”

“

It's so nice to have a single point of contact throughout the process, from the pitch to candidate placement.

Top Tier Consulting Firm

”

“

The ongoing interaction throughout the search process was honest and productive, even with negative news. They always had the next idea for job opportunities identified and they have high quality employer relationships.

Candidate
